"First of all, design is very nice, really great job. Also adverts from different kennel, from different breed and from different country, all over the world. Concept is very good, design of advert great, show us dogs on work, exhibitions and also how dog enjoy in nature. On every photo dogs are happy! Even they work or stay on expo. There is a lot of kennel for which I would never heard that there is no yours web. On it is also a lot of very useful information, about microchip and one of article which I like it very much: how important are routines in lives' our dogs! Great job really! Congratulations. I would like to see in future more interesting articles and a lot of great photos from work and expo of different breed."
